

# TOP THINGS TO KNOW BEFORE GETTING A NEW ROOF PRE-CONSTRUCTION EVALUATION

## 1. BE PREPARED FOR NOISE

Roofing crews will most likely start on your roof in the morning. For the duration of your roof's beautification there will be constant construction noise.

## 2. MOVE LOOSE ITEMS

From walls and shelves such as pictures, plates, figurines, & other breakable decor. Hammering may create vibrations that can shake items off walls & shelves inside.

## 3. PROTECT THE OUTSIDE

Watch out for roofing debris. Move patio furniture, potted plants, gardening equipment, grills, etc. We take precaution to protect your things; however, bundles and shingles might fall.

## 4. WE NEED OUTLETS

We may need to use power tools for decking repair, ridge work, or vent installation, so please be prepared to provide an outlet for our use.

## 5. MOVE VEHICLES, CLEAR DRIVEWAY

We will need access to the driveway in order to load the shingles & during the clean up process. Things fall, so please protect your vehicles, cars, boats, bikes, etc. Away from the house & garage while work is being done.

## 6. PROTECT GARAGE ITEMS

If you don't have a ceiling in your garage and can see the bottom side of the roof decking, move or cover things that might get damaged like cars, boats, lawnmowers, etc. with valuable finishes
